### **GENERAL INFORMATION**

Peanut Plus XL is a high analysis liquid manganese product with enhanced solubility for better foliar uptake. Peanut Plus XL also contains Sulfur and Copper which are critical for proper nut development and peanut production.

Peanut Plus XL may be mixed with most pesticides however, it is advisable to perform a simple jar test before mixing. Always check tank pH and adjust level to a recommended spray mix. Do not tank mix Peanut Plus XL with glyphosate as antagonism may occur.

### **DIRECTIONS FOR USE**

This product should be used as a supplement to a regular fertility program. By itself, it will not provide all the nutrients normally required by plants. Make frequent applications at lower rates, or apply higher rates at times of greater plant demand. Optimum rate of application will vary depending on treatment interval, soil properties, weather conditions, time of year, plant species and its nutrient requirements. This product should be used on the basis of a soil test or tissue analysis.
